

This is a guide on how to tweak the print colors.

You can always see a visual explanation to the steps by looking at the at the pictures below each instruction:

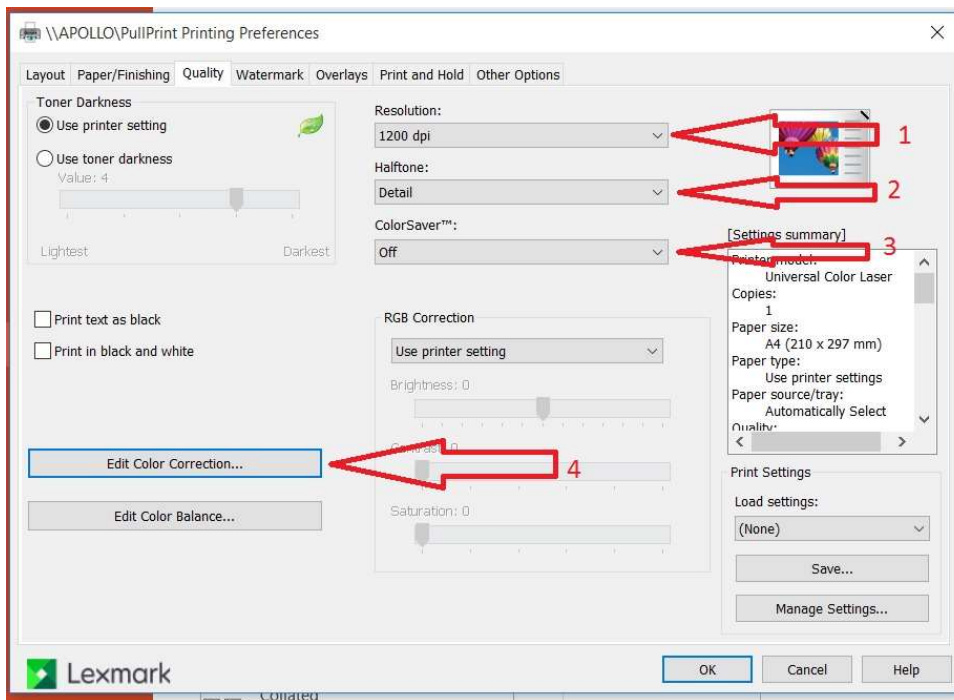

When you see "quotes" in the guide, you shall not write them.

Click "Printer Properties"

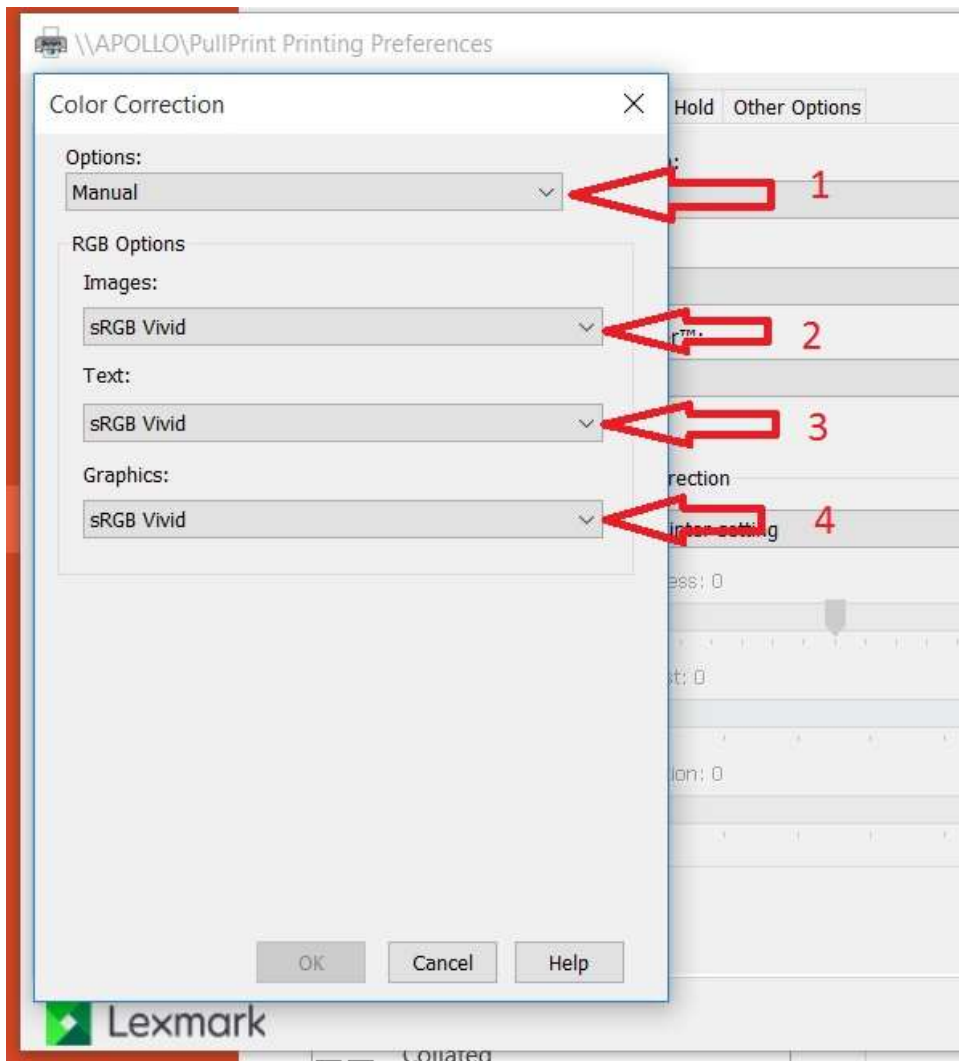

Click the tab named "Quality".

Set the options 1-3 as shown in the picture and click 4 "Edit Color Correction"

Select the options as shown in the picture below and click ok.

Click ok again and print.

Any questions? Please send an e-mail to helpdesk@cmm.ki.se or call the IT-department at 08 - 517 723 53.
